

Dear Assistant General Counsel Hilary Malawer,

Related Services are to assist a child with a disability to benefit from special education. The Deafblind person cannot benefit from special education without a trained Intervener. We need CFR title 34, Subtitle 111, Chapter 111, Part 300 Subpart A, 300.34 related services to be modified to include an Intervener. My cousin is deafblind he needed a trained Intervener when he was in school before Newport News School District withdrew him. He did not receive FAPE. This issue being addressed would be very beneficial, thank you for your support in advance.
