The "Dear Colleague Letter and Resource Guide on ADHD"

<https://www2.ed.gov/about/offices/list/ocr/letters/colleague-201607-504-adhd.pdf>

Please do not take this away from people who could benefit from this. If it was not for this program I would have not been successful in high school and now in college. Being able to get tested and see what I needed in school so that I could be the best student I could be would have never happened if it was for CHADD. I was able to graduate high school with honors and get the HOPE Grant. So far in college I have also been able to maintain this because of the support I get from this program. I know there others out there just like me with ADHD and Dyslexia who just need a little more help in order to unleash their full potential. The US needs CHADD to stay so that future generations do not feel like they are not smart enough or that there is something wrong with them because they cannot retain the information taught to them like the rest of the class.

Please help other kids that were like me. Kids who did not think they could ever catch up with their classmates when it came to reading, writing, and spelling. Make it where students and parents have a way to see how easy it is to get tested and see what accommodations are needed to help them become a successful student. Just like me and hundreds of others that are now on their way to a better graduating high school and college and getting jobs that they have always dreamed of.
